

Arctic and Antarctic Workshop

WHO

Year 6 Praying Mantis class

WHAT

Year 6 had a visit from Becky at One Day Creative on Tuesday 13th January. She delivered a workshop with us all about the Arctic and Antarctica. We played games, learnt lots of interesting facts and did lots of drama activities, like freeze frames.

WHY

This workshop was our 'memorable experience' for our Frozen Kingdoms topic. It helped us to learn about these special places in a fun and interactive way.

IMPACT

"I liked the workshop because there were lots of activities and ideas. It was good to show a PowerPoint and to encourage teamwork. I loved it and really enjoyed it. I hope they can come again in the future" (Year 6 HLTA)

"My favourite part was presenting my own wildlife show!" (Year 6 pupil)

"The workshop was so informative about why the children play such a big part in the global climate. It was engaging and interesting for us all, so much so, I went away and did more research!" (Year 6 TA)
